PROJECTS

Employee Management(CRUD) -Built using Tailwind, Material UI,React.js, Node.js,Express.js and MongoDB

- Designed and implemented the front end using React.js, creating a responsive user interface with Tailwind CSS for styling and Material UI components for enhanced functionality.
- Developed the backend server using Node.js and Express.js, handling HTTP requests and responses, and integrating with MongoDB for data storage.
- Utilized MongoDB for database management, designing schemas and implementing CRUD operations for efficient data manipulation.

Spotify Clone -Built using HTML,CSS and Javascript

- Designed and implemented responsive user interfaces for seamless user experience.
- Implemented client-side form validation to ensure data accuracy and improve user interaction.
- Utilized Tailwind CSS for efficient styling and rapid development.

SUMMARY
